# Program Overview

**Can enter the university  
with the best ranking**

**Name of Program:** Master in Internet of Things

**Faculty:** Facultad de Informática

**Duration:** 1 year (2 semesters)

**Credits:** 60 ECTS

**Mode:** On-site / Face-to-face

**Language:** Spanish

The program focuses on the complete IoT ecosystem:

-  IoT Node Architecture – sensors, embedded systems
-  Wireless Networks – 5G, ZigBee, LoRa, NB-IoT, etc.
-  Cloud Computing & Data Storage
-  AI and Edge Computing
-  Cybersecurity & Legal Frameworks
-  Practical Projects with Real Devices

 **What Will You Learn?**

# Why Choose This Master?

- Updated knowledge on the latest IoT trends and technologies
- Practical learning with real equipment
- High employability in Europe and Latin America
- Based in Madrid, one of the best cities for students
- Opportunity to network with top professionals

"No matter how difficult the obstacles for graduation, if you try, you will achieve it. The effort will never betray the results"

# Admission Requirements

For international applicants:

- Valid Bachelor's Degree in:
  - Computer Science
  - Software, Electronics, or Telecommunications Engineering
  - Related technical degrees
- Spanish level B2 recommended
- Application through the UCM online portal
- Submission of:
  - Academic transcripts
  - Passport or ID
  - Letter of motivation
  - Curriculum Vitae (CV)
  - Possible interview

# Costs and Budget

Food and personal expenses	€2,000 – €3,000
Transportation	€300 – €400
<b>Total</b>	<b>€8,000 – €11,800</b>

# Campus & Facilities

- 📍 Located at Moncloa Campus, Madrid
- 💻 Modern labs with IoT equipment
- 📚 Access to one of the largest university libraries in Spain
- 🔧 Makerspaces and tech workshops
- ☕ Cafeterias and resting areas
- 🎓 International student services office

-  Discover Spanish culture and history
-  Concerts, sports, museums, and nightlife
-  Over 86,000 students at UCM
-  Join student clubs and tech communities
-  Meet students from all over the world

# Student Life in Madrid

# Career Opportunities

Graduates can work in:

- IoT Systems Engineering
- Smart Cities and Industry 4.0
- AI and Big Data for IoT
- Cybersecurity for IoT
- Research and development (R&D)
- International consulting firms

# FINAL INVITATION

Do you want to be part of the future of technology?  
Would you like to study in Europe, improve your skills and live in an amazing  
city?

👉 Then join the IoT Master at UCM – and build the smart world of tomorrow!
